PROFILE SUMMARY

MCA graduate with hands-on experience in Python, SQL, FastAPI, REST APIs, backend development, machine learning, data analysis, and AI-powered applications. Built and deployed production-ready applications including a multilingual RAG chatbot and backend REST APIs. Experienced in API development, databases, machine learning, NLP, vector search, and cloud deployment. Strong problem-solving and analytical skills with an interest in Backend Development, Software Engineering, AI/ML, and Data Science roles.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Backend Development: FastAPI, Flask, REST APIs, API Development, Request Validation, Modular Architecture

Machine Learning & Data Science: Scikit-learn, Pandas, NumPy, Machine Learning, Feature Engineering, Data Analysis

AI & NLP: LangChain, LLMs, RAG, Prompt Engineering, NLP

Vector Databases: Qdrant, FAISS, Hybrid Search

Databases: PostgreSQL, MongoDB, MySQL

Frontend & Deployment: React.js, Docker, Git, GitHub, Vercel, Hugging Face Spaces, CI/CD

Core Skills: Problem Solving, Analytical Thinking, Communication, Teamwork, Adaptability

AI Developer Tools: Claude Code, GitHub Copilot, OpenAI Codex

PROJECTS

Multilingual AI Chatbot for GBPIET Website

[Live — gbpiet.ac.in]

Python · FastAPI · LangChain · Qdrant · Groq API · React.js · PostgreSQL (Neon)

- Developed and deployed a full-stack, production RAG chatbot live on the official GBPIET website, serving 300+ students across 4 languages.
- Built a modular FastAPI backend with structured routing and a React.js frontend; deployed backend on HuggingFace Spaces, frontend on Vercel, and database on Neon (PostgreSQL) with an end-to-end CI/CD pipeline.
- Implemented Qdrant hybrid dense+sparse vector search over 100+ preprocessed web pages to improve retrieval relevance and response accuracy.
- Engineered multilingual prompt templates using LangChain for accurate, context-aware, language-specific responses, and integrated Groq API for fast LLM inference.

EXPERIENCE

Emerging Technologies Intern

Edunet Foundation (AICTE & IBM SkillsBuild) | May–Jun 2026

- Completed a 4-week intensive training program covering Artificial Intelligence, Cybersecurity, Quantum Computing, and IBM Cloud technologies; built an AI and Cloud Computing project applying industry-standard tools and workflows.

Strategy, Consulting & Research Intern — Team Lead

UptoSkills (Remote) | Jan–May 2026

- Led a 4-member team to deliver 3+ consulting and market analysis reports on schedule across 5+ industry sectors; standardized documentation templates, reducing revision cycles and improving report turnaround time.

Backend Development Intern

Prodesk IT & Engineering Services | Jun–Jul 2025

- Built and tested 5+ REST API endpoints in Python with request validation, structured routing, and modular data processing; received a Certificate of Appreciation for consistent code quality and on-time delivery.

EDUCATION

Master of Computer Applications (MCA) — GBPIET, Pauri, Uttarakhand

CGPA: 8.28 | 2024–2026

Bachelor of Science (BSc) — Kumaun University, Nainital

CGPA: 6.07 | 2021–2024

CERTIFICATIONS & ACHIEVEMENTS

- Certificate of Participation — ViCoDathon 2026 (AB Talks), India's AI Vibe Coding Hackathon, Aug 2026.
- Certificate of Appreciation — Prodesk IT & Engineering Services, July 2025.
- Completion Certificate (ID: US-INT-2026-X3CR78N) — UptoSkills, May 2026.
