

DIKSHA PHARTYAL

AI/ML & Backend Developer • MCA Graduate

Ramnagar, Uttarakhand | +91-9568646077 | phartyaldiksha05@gmail.com
linkedin.com/in/diksha-phartyal-818357354 | github.com/phartyaldiksha05-ux

PROFILE SUMMARY

MCA graduate with hands-on experience in Python, SQL, FastAPI, and REST APIs, focused on AI/ML, RAG systems, and backend engineering. Built and deployed a production multilingual RAG chatbot live on a college website, serving 300+ students. Fast learner with a track record of shipping working software as a fresher — seeking an entry-level role in AI/ML, Backend Development, or Data Science.

TECHNICAL SKILLS

Programming: Python, SQL

AI & LLMs: LangChain, RAG (Retrieval-Augmented Generation), Prompt Engineering, LLM Integration

Vector Databases: FAISS, Qdrant

Backend & APIs: FastAPI, Flask, REST APIs

Databases: PostgreSQL (Neon), MongoDB, MySQL

Tools & Deployment: Git, GitHub, Docker, Vercel, HuggingFace Spaces, React.js, CI/CD

AI Dev Tools: Claude Code, GitHub Copilot, OpenAI Codex

PROJECTS

Multilingual AI Chatbot for GBPIET Website (Live) | Python, FastAPI, LangChain, Qdrant, Groq API, React.js, PostgreSQL

- Deployed a full-stack, production **RAG chatbot** live on the official GBPIET website, serving **300+ students across 4 languages**; backend on HuggingFace Spaces, frontend on Vercel, DB on Neon (PostgreSQL), with end-to-end CI/CD.
- Implemented Qdrant hybrid dense+sparse vector search over 100+ web pages, improving retrieval accuracy by **~40%**; engineered multilingual LangChain prompt templates and integrated Groq API for sub-second inference.

Kumauni Language Tokenizer (In Progress) | Python, HuggingFace Tokenizers, NLP, Subword Tokenization

- Designing and training a custom subword tokenizer (BPE/WordPiece) for Kumauni, a low-resource Pahari language of Uttarakhand, to enable downstream NLP and LLM fine-tuning.
- Curating a Kumauni text corpus and building preprocessing pipelines for normalization, script handling, and vocabulary construction.

AI-Powered Real-Time Intrusion Detection System (In Progress) | Python, FastAPI, Scikit-learn, React.js, Docker

- Building an ML-based IDS for real-time traffic monitoring and multi-class threat classification; designing FastAPI REST APIs and a React.js alerting dashboard, containerized with Docker.

EXPERIENCE

Emerging Technologies Intern — Edunet Foundation (AICTE & IBM SkillsBuild)

May – Jun 2026

- Completed a 4-week intensive program covering AI, Cyber Security, Quantum Computing, and IBM Cloud technologies.
- Built an AI and Cloud Computing project applying industry-standard tools introduced through IBM SkillsBuild.

Strategy, Consulting & Research Intern — Team Lead — UptoSkills (Remote)

Jan – May 2026

- Led a 4-member team to deliver 3+ consulting and market analysis reports on schedule across 5+ industry sectors.
- Standardized documentation templates across the team, reducing revision cycles and improving turnaround time.

Backend Development Intern — Prodesk IT & Engineering Services

Jun – Jul 2025

- Built and tested 5+ REST API endpoints in Python with request validation, structured routing, and modular data processing.
- Received a Certificate of Appreciation for consistent code quality and on-time delivery.

EDUCATION

Master of Computer Applications (MCA) — CGPA: 8.28 • 2024–2026

G.B. Pant Institute of Engineering & Technology (GBPIET), Pauri, Uttarakhand

Bachelor of Science (BSc) — CGPA: 6.07 • 2021–2024

Kumaun University, Nainital

CERTIFICATIONS

- Certificate of Appreciation — Prodesk IT & Engineering Services, July 2025
- Internship Certificate (ID: US-INT-2026-X3CR78N) — UptoSkills, May 2026
